

Barrel Clamp

Barrel Clamps - A Barrel Clamp is really a hydraulic or mechanical attachment meant for a lift truck. It can be used so as to squeeze the item you need to move utilizing the lift truck and is often utilized for handling barrels, kegs and paper rolls. Some types of barrel clamp attachments even have a revolving function. For example, the revolving function enables the person operating the forklift to be able to put in a vertically stored paper inside the horizontal intake of a printing press.
